- Completed 20+ trainings in Develop You database covering topics such as Risk Essentials, Financial Crimes Risk Management Basics, Handling Material Nonpublic Information (MNPI) and Agile Foundations
- Participated in weekly meetings impacting Corporate Risk Technology and Compliance, Legal, Audit and Regulations Relations Technology; attended issue management intake sessions with application managers
- Key Project: Conducted analysis of 873 applications across Enterprise Functions Technology (EFT) portfolio and CIO Divisions to determine levels of compliance with company Minimum Application Requirements (MARs)

CUNY Startups, New York, NY

March 2021 – June 2021

Program Assistant

- Spearheaded the creation of the ‘Startup Resources’ page at cunystartups.com after compiling 60+ tech and entrepreneurship related online resources
- Contacted potential mentors and oversaw relationship creation between 24 mentors and 15 student run startup teams; initiated partnership between CUNY Startups and the Zicklin Investment Club (ZIC) to foster greater graduate and undergraduate student partnership and engagement
- Coordinated distribution of \$10,000 in prize money to startup founders for strong performance and growth within the CUNY Startups Accelerator program

Upperline Code, New York, NY

July 2020 – August 2020

Summer Teaching Assistant

- Supported two instructors to deliver software engineering curriculum, solve technical issues, answer questions posed by students, build lesson plans, and analyze participant feedback for 150 students over the course of the program
- Led team-building exercises, coded individually with students, and refined instructional strategies

Code for Good Hackathon, JPMorgan Chase & Co., New York, NY

January 2020

Team Leader

- Competed among 70+ students in 24-hour hackathon; developed Whereify-compatible app using Adobe XD that addresses environmental sustainability by enabling users to report excessive garbage buildup in NYC
- Awarded Best in Concept with team of three upon presenting prototype to panel of seven JPMorgan Chase judges

FinTech Focus, New York, NY

July 2019 – August 2019

Morgan Stanley Fellow

- Trained with Morgan Stanley employees to gain foundational understanding of the FinTech sector and software engineering; developed and iterated upon prototypes and Minimum Viable Products (MVPs)
- Built full-stack applications and presented final product to representatives of top-tier banking institutions including Bank of America, Goldman Sachs, and Wells Fargo
- Key Project: “Operation” – Utilized Python to develop a command-line-based calculator capable of computing the four main operations of mathematics with two numerical inputs using variables, while loops, if(); and elif(); statements
- Key Project: “The Balance” – Collaborated with two fellows using Flask, MongoDB, Python, HTML and CSS to build a financial budgeting app that allows users to easily track income and expenses with varied timetables

SKILLS

Computer: Proficient in Bootstrap, CSS, & HTML; Intermediate in Flask, MongoDB, & Python; Basic in Adobe XD
